PROFESSIONAL OBJECTIVES

As a recent graduate with a passion for coding and a solid foundation in Python, I am eager to embark on my career as a junior full-stack Python developer. My education and personal projects have equipped me with a strong understanding of web development, databases, and front-end technologies, making me well-prepared to tackle the challenges of a dynamic development environment. I am a highly motivated, detail-oriented individual who thrives on problem-solving and continuous learning. My goal is to secure a position where I can not only apply my existing knowledge but also gain valuable experience and expertise from a collaborative team. I am excited to contribute my skills to the creation of innovative web applications and to make a meaningful impact in the world of software development.

PROJECTS

E-Clothing Website [!\[\]\(4f6bf54ae7e4144a72d78316053e412d_img.jpg\)](#)
(Backend on progress)

1. Project Overview: I'm developed a project Online purchasing system using Python and the Django framework.
2. Frontend Technology: The frontend of the project utilized HTML, CSS, Bootstrap and JavaScript. This choice of frontend technologies ensured a user-friendly and responsive interface.

Portfolio [!\[\]\(56549452e01ca28bdf2500ced9653143_img.jpg\)](#)

Aspiring web developer passionate about crafting engaging online experiences. This portfolio project showcases my skills and projects in HTML, CSS, and JavaScript. With a focus on user-centric design and functionality, I've created a dynamic platform featuring sections for About Me, Contact Information, Projects, and Skills. By leveraging these tools, I've demonstrated proficiency in front-end development and an ability to create visually appealing and interactive websites.
